Statutory Authority. This notice is being issued to all interested parties in accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, and the Council on Environmental Quality (CEQ) Code of Federal Regulations (40 CFR parts 1500-1508).

Background. An EA and draft FONSI for the proposed action were prepared in accordance with the requirements of NEPA and Engineering Regulation 200-2-2, Procedures for Implementing NEPA. Proposed Action. The proposed action is for the U.S. Army Corps of Engineers to grant a 90-foot easement to Tarrant Regional Water District so that they can construct a portion of their proposed project on Federal property. The other actions considered in the EA include the no action alternative and one other alternate route. The easement would include an easement for a 96-inch pipeline and a booster pump station facility with water tanks. The easement would also be wide enough to include an additional 96-inch pipeline in the future.

Public Hearing. A public hearing has not been scheduled for this proposed action. Prior to the close of the comment period, any person may make a written request for a public hearing, setting forth the particular reasons for the request. The District Engineer will determine whether the issues raised are substantial and should be considered in his decision. If a public hearing is warranted, all known interested parties will be notified of the time, date, and location of such a hearing.
